The screenshot shows a terminal window titled "PatientListTest". The output of the program is displayed, listing four patients: Zeki Güldür (id 120), Çağatay Han (id 121), Orhan Elmas (id 123), and Arda Cengiz (id 124). The terminal interface includes standard navigation keys (up, down, left, right) and icons for running, stopping, and saving. The status bar at the bottom indicates the current directory is "CENG201_HW_Assignments > src > PatientListTest".
